Education

2010-2015 **PhD**, *The University of Texas at Austin*, Electrical and Computer Engineering.
2007–2009 **M.E.**, *Indian Institute of Science, Bangalore*, Electrical and Comm. Engineering.
2003–2007 **B.E.**, *Mumbai University*, Electronics Engineering.

Employment

Since 2017 **Stanford University**, *Stanford*, CA.
Postdoctoral Research Scholar. Hosts: Jose Blanchet and Ramesh Johari.

2017 **Indian Institute of Technology (IIT) Bombay**, *Mumbai*, India.
Visiting Faculty.

2016-2017 **Microsoft Research-INRIA Joint Center**, *Paris*, France.
Postdoctoral Research Scholar. Host: Laurent Massoulié.

2015 **The University of Texas at Austin**, *Austin*, Tx.
Simons Postdoctoral Fellow. Host: François Baccelli.

2010-2015 **The University of Texas at Austin**, *Austin*, Tx.
MCD Fellow and Graduate Research Assistant. Advisor: Gustavo de Veciana.

2013 **Nokia Bell Labs**, *Crawford Hill*, NJ.
Research Intern. Hosts: T.V. Lakshman and Murali Kodialam

2009-2010 **Indian Institute of Technology (IIT) Bombay**, *Mumbai*, India.
Research Fellow. Hosts: D. Manjunath and Bikash K. Dey

Research interests

I develop models and algorithms for Internet platforms to address the tradeoffs between exploration to reduce uncertainty, and exploitation for instantaneous and future benefits.
Learning, market analytics, multi-armed bandits, revenue management,.

Recent works

- Bandit learning with positive externalities. V. Shah, J. Blanchet, R. Johari.
  - Accepted at NeurIPS (formerly NIPS) 2018.
  - Preliminary version presented at ICML Workshop on Causal ML, 2018, and INFORMS, 2018
- Optimal testing in the experiment-rich regime. S. Schmit, V. Shah, R. Johari.
  - Accepted at AISTATS 2019.
  - Preliminary version presented at ICML Workshop on Causal ML, 2018.
- Adaptive matching algorithms for expert systems with uncertain task types. V. Shah, L. Gulikers, L. Massoulie, M. Vojnovic.
  - Under review at Operations Research journal. Major Revision.
  - Preliminary version presented at Allerton conference, 2017, and INFORMS 2018.
- Semi-parametric dynamic contextual pricing. V. Shah, J. Blanchet, R. Johari. Submitted.
- Asymptotically Optimal Thickness of a Centralized Dynamic Matching Market with IID Utilities. J. Blanchet, M. Reiman, V. Shah, L. Wein. To be submitted.

Awards

- Best Paper Award, IEEE INFOCOM 2014 at Toronto, Canada. 1650 papers submitted, and 313 papers accepted to the conference.
- MCD Fellowship at The University of Texas at Austin, 2010-11. Awarded to about top 1% applicants at the graduate school.

Teaching experience

2013 **The University of Texas at Austin**.
Teaching Assistant. Graduate course on Probability and Stochastic Processes.

Programming Languages

- Python, C, Matlab
